Certification Mark Text
This certification mark, as used by person(s) authorized by the certifier, certifies the regional origin of lamb, lamb products, and prepared foods containing lamb, all being Welsh Lamb, which is lamb that is born and reared in Wales, United Kingdom and slaughtered and processed in an Hybu Cig Cymru verification scheme approved abattoir/processor site, where such verification scheme

approval process consists of: (1) an initial inspection of the traceability and meat sourcing systems of the abattoir/cutting plant to establish geographical indication status of 'Welsh Lamb', as well as evidence of the site's demonstrated due diligence and compliance with legislative requirements in regard to food safety and food quality, as follows: (a) hazard analysis and critical control point (HACCP, which is an approach to food safety that is systematic and preventive, and is recommended by the Codex Alimentarius Commission, the United Nations international standards organization for food safety); (b) quality control systems; (c) organisational structure, responsibility and management authority; (d) meat sourcing (e) traceability; and (f) product labelling which must feature the geographical indication 'Welsh Lamb' on labelling or tags attached to carcasses, part of carcasses or cuts, in combination with this certification mark and the protected geographical indication symbol of the European Commission, where such inspections are carried out by an independent certification body, and a successful inspection will result in the site receiving a certificate of approval from Hybu Cig Cymru (which is valid for 13 months from the date of the initial inspection); and (2) interim compliance checks (ICC), in which a quarter of the members of the scheme (abattoirs and cutting plants) are randomly selected for an ICC each year on short notice (in addition to annual inspections). Any non-conformances recorded during the ICC are to be addressed or the site's existing certificate of approval will be suspended. A copy of the complete details of the standard are available for the public within the Canadian Intellectual Property Office.
